To Our Friends.

WE desire to preface our Catalogue and Price List with a few remarks pertinent to our business: On the evening of the 6th of April, 1872, our factory, in which were manufactured Upholstered Goods, Marble Top Tables and Furniture was entirely destroyed by fire. In 22 days (including the time employed in removing the debris) we erected on the site of the burned factory, a handsome brick building, 4 stories high, besides basement story, the total length of which is 162 feet. We have availed ourselves of every improvement in machinery that will facilitate the production of our work, and enable us to furnish goods to dealers better and cheaper than can be found in the New York or Philadelphia Market. You are referred to the illustrations of Marble Top Tables, the designs of which, considering the prices, are undoubtedly unequalled. Your especial attention is called to this branch of our business. A careful perusal of the prices of Upholstered work, Mattresses, etc., the workmanship of which are well known, will amply repay you.

Respectfully,

COOPER & HALL.
